ATLANTIC MENHADEN

<b>Suspected Cause</b>	<b>Other Species Affected</b>	<b>Waterbody Type</b>	<b>Duration</b>	<b>Kill Area</b>
Unknown	NONE	Ocean	2 days	

**Tributaries Affected**

**Samples**

## Notes:

Reports of dead menhaden on beach near the Duck Research pier. Hundreds to a thousand menhaden had washed up in the preceding high tide. A Marine Patrol officer investigated and confirmed menhaden washed up on the beach from the Currituck line south to the Avalon fishing pier. Seismic-type activity felt in the area prior to event. No commercial fishing operations observed in area.
